

3 Yard Temporary Dumpster Terms and Conditions

Placement: Temporary dumpster sites must be approved prior to placement. Following approval of the site, and items for disposal, the customer must prepay the dumpster rental and complete the application. Dumpsters may not be moved from the approved location except by District personnel. Moving to an unapproved location may result in removal of the dumpster and forfeiture of fees paid.

Fees: The monthly fee will not be prorated. For example, if the dumpster is delivered on February 1 and removed February 28, (kept for the entire calendar month) or delivered on February 15 and removed February 20, (used for 5 days during the calendar month), the cost is the same. The monthly rental fee of \$273.07 must be paid in advance of dumpster delivery. Following completion of the application and payment of fees, the dumpster will be scheduled for delivery on the next regular business day. To continue month-to-month usage, the new month's charges are due in the office by the 25th (see removal).

Removal: On the 26th of the month, the District will automatically schedule the dumpster for removal on the last working day of the month if the customer has not prepaid the new month's rental fee. Returning customers, who neglect to prepay the new month's rental fee before removal, can expect redelivery within 3 business days.

Initial _____

Use: The Refuse Department will empty your temporary dumpster twice per week, usually on Mondays and Fridays. Please call the office if you need an extra pick-up, for rates and availability. It is the customers' responsibility to keep the area near the dumpster clear. Blocked access to the dumpster whether with snow, ice, debris, vehicles, fences or gates, etc., may result in missed pick-ups. Inability to make scheduled pick-ups will not entitle the customer to a refund, extension of service or additional pick-ups. The District will not accept any electronic waste, concrete, steel, asbestos, hazardous waste, brick, concrete, large pieces of wood or stone, or any other non-compactable items in the dumpster. The District will accept small amounts of construction debris, not to exceed 4' in length. Dumpsters will not be emptied if they are filled above the top edge of the container or contain unacceptable items.

If you have questions regarding any of this information, please contact Customer Service at (909) 585-2565.
