

Roll Off Dumpster Terms and Conditions

Capacity: The standard roll off size is 12 cubic yards; smaller containers are available for heavy materials. The District will determine the appropriate roll off container based on the waste disposal indicated on the application. **Special conditions:** For disposal of heavy items such as concrete, asphalt, shingles or dirt, roll off container shall be **no more than 50% full**. If container is overfilled, customer shall be responsible for removal of excess debris.

Rental Period: Roll off container rental period is 7-days. The District will automatically schedule removal of a roll off one week after it was delivered, on the same day of the week. Please call to schedule early removal. No rental period extension is available.

Fees: The rental fee of \$236.71 will not be prorated. Following approval of the site, completion of the application and payment of fees by cash or check, the roll off will be scheduled for delivery based on availability as discussed prior to rental. Once a dumpster has been delivered, the terms of this rental agreement cannot be changed, and the fees become non-refundable. Roll off fees include 3 tons of disposal. Additional weight at time of disposal may be subject to additional fees.

Property Damage: The District is not liable for damage to property due to placing or removing a container. Roll off sites must be approved by the District and confirmed by the customer before a container is placed, therefore all liability of damage is placed with the customer. It is the customers' responsibility to locate all underground utilities or other infrastructure that may be damaged by the placement and/or removal of a container.

Prohibited Items: The following items are prohibited from being placed in a container. Federal, state and county law/regulation require special handling and disposal of the following items. If any of the below items are found in a roll off container upon scheduled removal, the customer will have 24 hours to remove the items. After such time, District staff will remove and leave any remaining prohibited items at the property (fees apply).

Prohibited Item	Examples (including but not limited to)
Asbestos Containing Items	Slate siding, insulation, fiberboards, tiles, pipe and duct insulations or any other items made from asbestos.
Batteries	Lead acid batteries, bulk disposal of household batteries, or electronics containing rechargeable batteries.
Bulk Liquids	Drums of fluid, full or partially filled paint cans, etc.
Chemicals	Motor oil, coolant, cleaning products, etc.
Electronics	TVs, DVD players, cell phones, computers, speakers, tablets, etc.
Explosives	Gun powder, oxidizers, propane tanks, spray paint cans, etc.
Flammable Materials	Gasoline, lighter fluid, paint thinner, lacquer, oil-based paint etc.
Hazardous Wastes	Acids, bases, organics, oxidizers, pesticides, paints, organic solvents, radioactive waste, and medical supplies.
Medical Wastes	Bandages, syringes, band-aids, deceased animals, etc.
Tires and Wheels	Any type of wheel or tire.
