Comments: _____

Customer Responsibility

- If the customer is not the property owner, it is the customer's responsibility to obtain permission from the property owner to place the dumpster on their property.
- The customer is responsible for providing a clear and safe path and location for delivery, empty, and removal of a dumpster.
- The customer is responsible for all materials in dumpster. Accepted and prohibited material information can be found on reverse side of this application.
- Separate rental applications, fees, and containers are required for disposal of trash and green waste. Trash and green waste cannot be comingled in any container.
- Roll-off's filled with heavy material such as dirt or rocks shall be no more than 50% full.

I have read and agree to the terms and conditions of the reverse side of this application.

Green Waste-Temporary Dumpster Terms and Conditions

Accepted Material: Acceptable items for disposal in a green waste dumpster include: pine needles, pine cones, leaves, grass clippings, pruning waste, livestock manure and tree limbs less than 1.5 inches in diameter. Non-compactable items such as dirt, and rocks are only accepted in a roll off dumpster. Green waste must be placed in the dumpster loose; do not bag green waste.

Prohibited Material: Trash is prohibited from green waste dumpsters. Trash includes household trash, food waste, construction debris, carpeting, roofing, ashes, lightweight plastics, and clothing. The following items require special handling and are prohibited from any solid waste container: asbestos containing items, batteries, electronics, tires, wheels, large tree stumps, treated wood, biohazard and hazardous waste. Non-compactable items such as dirt, and rocks are prohibited from 1-yard and 3-yard dumpsters.

Capacity: Dumpsters will not be emptied if they are filled above the top edge of the container or contain prohibited materials. If a dumpster is overfilled or contains prohibited items, the customer is responsible for removal of excess and prohibited material. Dumpsters used for disposal of heavy items such as concrete, asphalt, roofing or carpet shall not be more than 50% full.

Fees: Rental fees are not prorated. For example, if a calendar month rental is delivered on May 1 and removed May 31 (kept for the entire calendar month), or delivered on May 15 and removed May 31 (used for 16 days during the calendar month), the cost is the same. Complete application and payment of fees, by cash or check, is required prior to dumpster delivery. Following delivery, the terms of this agreement cannot be changed, and the fees become non-refundable.

Placement: Roll off dumpsters may require site approval prior to delivery. Dumpsters of any size may not be moved from the delivery location except by District personnel. The District shall not be responsible for damage to any private pavement or accompanying subsurface to lawn, concrete, asphalt or any route reasonably necessary to perform the services herein contracted. Moving to an unapproved location may result in missed empties, or removal of the dumpster and forfeiture of fees paid. It is the customers' responsibility to keep the area near the dumpster clear. Blocked access to a dumpster due to snow, ice, vehicles, fences or gates, weather or road conditions, etc., may result in missed empties. Inability to complete scheduled empties will not entitle the customer to a refund, extension of service or additional empties.

Removal: Weekly dumpsters will be removed the same day of the week the dumpster was delivered. Calendar month rentals will be scheduled for removal on the last working day of the month. If continuous service is desired, payment for consecutive weeks or months must be paid before the removal day. Please call to schedule early removal.
