Solid Waste Cart Request Terms and Conditions

One 96-gallon trash cart and one 64-gallon recycle cart is provided per equivalent dwelling unit (EDU) to all improved properties within the Big Bear City Community Services District (District) service area. Utilizing any container other than those provided by the District is strictly prohibited. Green waste can be self-hauled or a 96-gallon green waste cart can be rented for curbside collection.

Additional Trash Service: Additional trash carts can be rented on an annual, or monthly basis up to a maximum total of 3 trash and 3 recycle carts per parcel. Additional trash and recycle carts will be emptied on the normal collection day according to the address.

Annual: \$193.71 **Monthly:** \$25 delivery + 16.15 per month

Green Waste Service: Green waste carts are emptied every other week, seasonally from April through October. Green carts can be rented on an annual, or monthly basis. Annual green waste customers will have the option to request one empty per month during the off season (November through March). Visit our website or call the office for the green waste collection schedule.

Annual: \$234.01 **Monthly:** \$25 delivery + 24.63 per month

Annual Cart Rental: Annual cart rental (trash or green) can only be requested by the legal property owner. The fee for the next tax year will be placed for collection on the property tax bill if removal is not requested before June 30th. Charges collected on the property tax bill are non-refundable. Green waste and additional trash cart(s) will remain at the property until removal is requested by the property owner. **Contact customer service for prorated pricing.**

Monthly Rental: Monthly rental fees are based on a calendar month and will not be prorated. For example, if the cart is delivered on May 1 and removed May 31, (kept for the entire calendar month) or delivered on May 15 and removed May 20, (used for 5 days during the calendar month), the cost is the same. The District will automatically schedule a cart for removal on the last working day of the prepaid rental period.

Cart Removal: By requesting removal of all trash and/or recycle cart(s) from the property, the property will no longer have weekly collection service. Requesting to have solid waste carts removed from the property does not exempt the property from the District's mandatory solid waste fees and charges. Redelivery of removed carts will be charged \$25.

Cart Replacement: If an assigned cart is lost, stolen, or damaged as a result of negligence, fire, unauthorized use or misuse, the owner/resident will be charged a \$100 replacement fee.

Contact Customer Service at (909) 585-2565 from 7:30am-5:00pm, Monday-Friday, except on District holidays, with any questions.
